COACH'S SUMMER RECAP

Well, it is hard to believe that we have reached the end of our summer workout schedule. It is amazing how quickly seven weeks can go by. Our first workout date was June 15th and our last workout occurred on Friday, August 7th. It has been a very good summer for our players and our program both on and off the floor.

We have worked hard this summer on the floor developing team chemistry and learning how to play with each other. The players have invested many hours of their own time working on their games in the gym beyond what we did as a team this summer. The investment into their own games and our team has been awesome to see. We had 18 team practices this summer along with four sessions per week in the weight room, which have really allowed our players to grow their skill level and their overall strength. We are excited to get going with our pre-season when the players return after their two-week (well deserved) break.

We were also able to have our summer camps on campus again this summer. Summer camps are a great way for us to promote our program and the University of North Dakota, as well as giving our players a chance to "give back to the game". This summer we had over 350 players attend one of our camp sessions. Another great summer of promoting UND Women's Basketball within the Upper Midwest.

We also have done quite a bit off the floor to help with our connections and relationships within our program. I will highlight a few things. We were able to take a two day/two night team retreat July 14-16 to Vergas, MN. We spent two days and nights at a lake cabin and had a great time getting to know each other more while also discussing our team and how we can become the team we want to be on and off the floor. We were able to participate in an event called "Girls Who Grill". Our players learned about different cuts of beef and were able to get behind the grill and cook some amazing recipes. We then were able to sample those recipes as we ate "family style" at the end of the day. Our team has made a commitment to giving back to the UND campus and the greater Grand Forks area with volunteering of their time. I love the fact that our players want to "give back" to the community. They have already volunteered at The United Way, organized a campus clean up, and have helped around our arena with various activities.

We had a great Elite Camp with 93 prospective student athletes who traveled from ND, SD, MN, and TX to join us!

From July 14-July 16, the UND WBB team went on a team retreat in Vergas, MN! This was a great opportunity to grow closer as a FAMILY, complete fun team activities, and learn more about each other!

We are very thankful to the ND Beef Commission for hosting the Girls Who Grill event. They taught us more about steak, how to prepare delicious meals, and more ways to learn about grilling. This was a great team experience!
